EMERG

A future for
research into ME

The European ME Research Group or Early Career Researchers (Young EMERG) have had their first joint paper published.

"Advancing Research and Treatment: An Overview of Clinical Trials in Myalgic Encephalomyelitis/Chronic Fatigue

The Young EMERG Workshop YEMERG04 is being moved from 28th June to 25th June - but still located at the Wellcome Genome Campus between London and Cambridge.

This will avoid it overlapping with the IIMEC16 Clinicians' Conference on 28th June.

Additionally, Young EMERG and their USA colleagues have agreed to use the **SPARK ME** name for the workshop - the same as used in the recent NIH ECR workshop in Washington.

EARLY CAREER INVESTIGATOR WORKSHOP FOR ME/CFS

25th June 2024

Hinxton Hall, Wellcome Genome Campus, Cambridge, UK

Organised by the young European ME Research Group and Invest in ME Research

A full day cross-disciplinary symposium for current PhDs, postdocs, and medical students researching or interested in myalgic encephalomyelitis/chronic fatigue syndrome (ME/CFS) or related research

- Expands the European and International, multi-disciplinary network to assist and encourage researchers in the field of ME biomedical research
- Opportunity for developing collaborative biomedical research projects
- Discussions of research grant opportunities for joint biomedical research project organized by young EMERG

IIMER 'LunaNova' Fellowship

Only a few days for applications for the latest Invest in ME Research Fellowship at the Centre in Norwich Research Park. Thanks to LunaNova for this new opportunity for expanding research.

With other projects being funded at the Centre the developments are also spawning more opportunities that are currently being discussed - the value in concentrating funding of biomedical research in Norwich

Invest in ME Research LunaNova Fellowship

To join the Laboratory of Professor Simon Carding and investigate ME/CFS

- Salary: £35,300 to £37,800
- Contract length: 24 months
- Apply by 2 February 2024

Quadram Institute

Walk for liMEr

The great team at Walk for ME are again supporting Invest in ME Research in 2024!

The original idea behind Walk for ME was that friends and family members did a sponsored walk on behalf of a loved one with ME but this has expanded over the years with people doing walks, runs, swims, climbs and bike rides in countries across the world.

To join the team and walk for Invest in ME Research just set up a JustGiving page for Invest in ME Research and link it to the Walk for ME team page [at this link](#)

We can supply t-shirts to supporters doing events for us.
